Description

Fineline veneers, also called designer veneers or multilaminar wood, are produced using a special process. For this purpose, sliced or peeled veneers of different types of wood

or dyed veneers in different shapes and structures are glued into veneer blocks in order to produce new veneers from them again. In addition to the reproduction of wood species,

fantasy structures can also be produced. Fineline veneers are uniform in colour and the design is consistent. This makes design veneers ideal for large projects that require a uniform structure, colour and look.

Specifications

Category	Veneers
Product group	Reconstituted veneers
Thicknesses	0.50 mm
Weight kg/m2	0.250
Specie	Fineline / Reconstituted Veneer
Botanical name	Fineline

Wood type	Hardwood
Main occurrence	Asia
Wood origin	China
Manufacturing/origin	Italy
Certification	not certified
Colour	white
Hue	clear
Use	furniture interior doors
Customs tariff number	44083900
Packaging	1 sehet, loose
Items on stock	no
Date of delivery	approx. 2 - 3 weeks
Postal shipping	nein
