

Bouls Olive Tree 50 mm

Item No. 02-000496

Description

The olive tree needs a lot of time to grow, it can even reach a biblical age. Its very dense, durable and hard wood has a subtle basic texture, which is broken up by greenish-brown veins and cloud-shaped spots. The olive tree gets its character from its warm, golden-brownish colouring and the beautiful dark wavy lines that can be seen in the longitudinal section.

Trade names and other names

German: Olive, Olive Tree

English: Olive, Olive Tree

French: Olivier, Olivier commun, Olivier d'Europe

Italian: Olivo, Ulivo

Spanish: Olea europaea, Olivo, Aceituno

Dutch: Olijfboom, Olijf

Portuguese: Oliveira

Arabic: n.a.

Chinese: 橄榄

Available thicknesses

50, 52, 60 mm, other thicknesses on request

Occurrence

The olive tree is widespread in North Africa and Southern Europe.

Trunk and bark

Pieces of trunk with a length of 1 to 3m and a diameter of approx. 0.1 to 0.2m are sold. The bark of the olive tree is green-grey and smooth, becoming cracked bark with age.

Characteristics and wood colour

Annual rings are more or less visible in the cross-grain, the grain being irregular. The sapwood of olive varies in thickness and has a light brown colour that darkens later. The heartwood is yellowish-white with a reddish tinge and streaked with dark stripes.

Specifications

Category	Lumber
Product group	Unedged lumber
Thicknesses	50 mm
Weight kg/m3	850.000
Specie	Olive Tree
Botanical name	Olea europea
Wood type	Hardwood
Main occurrence	Europe
Wood origin	Italy
Certification	not certified
Colour	light-brown
Hue	medium colour
Use	furniture interior
Surface structure	rough-cut
Humidity	10% ± 2%
Customs tariff number	44079910
Packaging	loosely
Items on stock	yes
Date of delivery	approx. 3 - 6 working days
Postal shipping	nein
