

## Veneer European Oak 1.40 mm

Item No. 01-000111

---

## Description

The oak has a grey-yellow to light brown to dark yellow-brown colouring. The wood pattern of the oak is characterised by ring-shaped early wood vessels and clearly separated annual rings, which show a distinctive pattern of the wood or stripes on the longitudinal surfaces. The large, broad wood rays typical of the oak are conspicuous and enliven the picture as a mirror.

### Trade names and other names

German: Eiche europäisch

English: English oak, European oak, French oak, Pedunculate oak

French: Chêne blanc, Gravelin, Chêne pédonculé

Italian: Farnia, Rovere, Rovere di slavia

Spanish: k.A.

Dutch: Europees eiken, Zomereik

Portuguese: Carvalho-roble, Carvalho-vermelho

Arabic: Ballud aswad ingilizi

Chinese: 栎木

### Available veneer thicknesses

0.56, 0.9, 1.2, 1.4, 2.4 mm and saw veneer 7 mm, other thicknesses on request

### Occurrence

Oak is found almost all over Europe, in Norway up to the 63rd degree north latitude and in Russia up to the 57th degree north latitude, as well as in the Caucasus and in Asia Minor, furthermore in the south as far as central Spain, Sicily and on Crete.

### Trunk and bark

Oak reaches a height of up to 50m in favourable locations, with a diameter of up to 2m, but usually shorter and weaker. The trunk of the oak is consistently well grown, often twisted and knotless up to 15m. The bark of the oak is thick, deeply longitudinally fissured and dark grey.

### Characteristics and wood colour

The oak has coarse pores and sharply defined annual rings. Wide medullary rays appear as light shiny bands in radial section and as brown lines in tangential section in oak wood. The yellowish-white sapwood of oak is only narrowly developed. The heartwood of the oak is grey-yellow when fresh, later darkening to light to dark brown when exposed to air.

## Specifications

Category	Veneers
Product group	Veneers sliced
Thicknesses	1.40 mm
Weight kg/m <sup>2</sup>	1.170
Specie	European Oak
Botanical name	Quercus robur/Quercus petraea
Wood type	Hardwood
Main occurrence	Europe
Wood origin	Germany   France   Italy   Croatia   Austria   Romania   Switzerland   Slovakia   Slovenia   Czech Republic   Hungary
Manufacturing/origin	Germany   Austria   Slovenia
Certification	not certified   FSC®100%
Colour	light-brown
Hue	medium colour
Use	furniture   interior   doors   construction wood
Customs tariff number	44089000
Packaging	in bundle, approx. 12 sheets
Items on stock	yes
Date of delivery	approx. 3 - 6 working days
Postal shipping	nein
