

Bouls Plane Tree 50 mm

Item No. 02-000516

Description

The sycamore has a narrow to broad sapwood, with a whitish or yellowish to slightly reddish colour. The heartwood is reddish grey. Flamed, figured, spotted, finely needle-cracked matt and strikingly shiny, this is the texture of the sycamore, which also makes it very decorative. The growth ring boundaries and wood rays are visible to the naked eye, and the wood rays also determine the texture.

Trade names and other names

German: Platane, Maple-leaved plane tree

English: Plane, Plane tree, London plane, London planetree, Hybrid plane, European plane

French: Plane tree, Platanier Rareté de Sycomore, Platane commun, Platane à feuille d'érable

Chinese: 悬铃木

Available thicknesses

40, 50, 52, 60 mm, other thicknesses on request

Occurrence

Sycamore is widespread in Europe (except N and NE) and in North America.

Trunk and bark

Sycamore reaches a height of up to 50m and a diameter of up to 3m. The bark of young Sycamore trees is dark grey to brown. With age, the bark of the sycamore flakes off in thin plates, the younger bark underneath is yellow-grey.

Characteristics and wood colour

The pores are small and scattered. Medullary rays large and conspicuous, distinct annual rings, strongly grained, very decorative. The sapwood is narrow to broad, whitish or yellowish to slightly reddish. Heartwood only blurred, reddish grey: steamed wood freshly wine red, later darkening reddish brown to brown.

Specifications

Category	Lumber
Product group	Unedged lumber
Thicknesses	50 mm
Weight kg/m ³	680.000
Specie	Plane Tree steamed
Botanical name	Platanus spp.
Wood type	Hardwood
Main occurrence	Europe North America
Wood origin	France Italy
Certification	not certified
Colour	red brown
Hue	medium colour
Use	interior musical instrument
Surface structure	rough-cut
Humidity	10% ± 2%
Customs tariff number	44079910
Packaging	loosely
Items on stock	yes
Date of delivery	approx. 3 - 6 working days
Postal shipping	nein
