

Veneered MDF B2/E1 board panel steamed Beech | A/B standard | book matched Item No. 04-001307

Description

We produce high-quality noble veneered MDF boards E1 normal flammability with a gross density of approx. 760 kg/m3 in over 120 different veneer wood species. Medium-density fibreboard or medium-density fibreboard, MDF board for short, is made from finely defibrated, mainly bark-free softwood and by gentle pressing.

Gluing

Veneer gluing formaldehyde-free with test certificate for the entire product

Area of application

Furniture and interior fittings as well as shop fitting and trade fair construction as fronts, curved furniture parts, table tops and worktops

Joining techniques

We distinguish between the following joining techniques how the individual veneer sheets are joined together: toppled, planked (also called planked or mixmatch), pushed or twisted pushed.

Standard formats

2440 x 1220 mm, 3050 x 1220 mm, 2800 x 2070 mm, other formats or fixed format cuts on request

Standard thickness incl. veneer

04, 06/07, 09/10, 11, 13/14, 16/17, 19/20, 23, 25/26, 29, 31, 39 mm, other thicknesses on request

Backing board variants

veneered MDF panels flame retardant, veneered MDF panels moisture resistant Please enquire about formats, thicknesses and availability in each case.

Veneers, fixed veneer masses and veneer edges

For all veneered MDF panels, we can supply you with matching veneers, veneer filler with or without a fleece coating on the reverse and veneer edges. Simply ask us.
