Description

The continuous rolls are generally available in **100 or 150 running metres**. We only sell the veneer edgings as entire rolls and cannot unroll smaller quantities. If you want to know the exact quantity m1 per roll, please ask us.

We produce over 50 types of wood into single layer real wood veneer edgings on rolls in thicknesses from 0.3 to 0.9 mm. All thin veneer edgebands are offered in the standard finish surface sanded, reverse side reinforced with fleece. The standard widths are 24 and 30 mm, other widths are available on order within 10 days.

On request, we can produce edges from your veneers in contract work according to your specifications.

Finishing options

- fleece reinforcement thin, thick, double
- PVAc pre-coating
- Splinter protection backing
- Melt adhesive pre-coating
- Special lamination D4 boiling water resistant

- Surface sanding
- highly flexible UV varnishing
- pigmented according to sample
- stained according to colour sample
- primed ready for overpainting
