

3-layer panel PIZ BADILE steamed Larch | band saw cut with water stains

Item No. 06-003308

Description

With our new product range, the antique 3-layer panels, there are no limits to the design possibilities with wood. Whether for ceiling cladding, store fitting or furniture design, the glued solid wood panels with the designs of our selected antique formwork leave nothing to be desired.

The Piz Badile has the character of a mountaineer: rough on the outside, somewhat rutted by wind and weather (or the band saw), but full of life and heart. Like every alpinist, each panel is unique with its washouts and structure. In the right place, where it is inherently unpretentious or a contrast to the smooth should provide excitement.

Specifications

Category	Reclaimed Wood Panels
Product group	3-layer solid wood panels
Lengths	3960 mm
Widths	1000 mm
Thicknesses	21 mm
Tolerance of thickness	± 1.0 mm
Specie	Steamed Larch
