

Stakkato Oak | split

Item No. 08-000054

Description

Staccato is a 3-dimensional wood surface created by splitting solid old wood or timber or by grading strips of different thicknesses.

The Stakkato wall elements are split from new oak wood and the surface is lightly brushed. The plank format is 600 x 150 mm and the thickness is between 16 and 22 mm. The slat width is fixed with 30 mm and falling slat lengths.

The toothed joint is ideal for concealed installation of the wall elements and no joint or step to the next element is visible. The wall elements with OSB support plate are only suitable for indoor use.

Specifications

Category	Reclaimed Wood Wall and Ceiling
Product group	Stakkato wall panels
Lengths	600 mm
Widths	150 mm
Thicknesses	22.0 mm
Weight kg/m ²	12.100
