

Wall panels PIZ NAIR Siberian Larch thermo 190° 134x19mm | chopped

Item No. 08-000105

Description

Relaxing wall panels. The well-known local mountain of the Swiss noble resort of St. Moritz delights many alpine lovers. The rustic appearance of our eponymous wall panels is even more convincing. The thermally treated larch boards offer a varied play of colours, radiate warmth and provide serenity. Warm, dark brown tones make you relax and feel that very special sense of being close to the earth.

The thermal treatment of the larch wood causes cracks or end cracks.

Specifications
