

Wall panels PIZ BADILE Larch steamed band saw cut with water stains

Item No. 08-000248

Description

The Piz Badile has the character of a mountaineer: rough on the outside, somewhat rutted by wind and weather (or the band saw), yet full of life and warmth. Like every alpinist, each panel is unique with its washouts and structure. In the right place, where it is unpretentious by nature or where a contrast to the smooth surface should create tension.
