Description

The Piz Bernina, the only four-thousand-metre peak in the Swiss Eastern Alps, towers skywards. Numerous glaciers surround the mountain massif, just as the wall panels of the same name made of native larch caress living spaces. Our wall panelling is extremely lively in its bright red, and is characterised by differences in colour and structure.

Specifications

Category	Reclaimed Wood Wall and Ceiling
Product group	Antique facades
Widths	138 mm
Thicknesses	19 mm
Weight kg/m2	11.800
Specie	Knotty Larch
