

Arbezol Spezial 5.0 l inkl. VOC-Abgaben

Item No. 15-000532

Description

Odourless, colourless, ready-to-use and solvent-based wood preservative for preventive and combative treatment against wood-destroying insects.

Arbezol Spezial is an odourless, solvent-containing wood preservative for sustainable control of wood insects and corresponding new infestations in wooden structures, furniture, etc. Kills all animal wood pests such as house longhorn beetles, "woodworms" (anobia), sapwood beetles (lyctus), wood wasps, wood ants, etc. and protects against new infestations. Is approved for the treatment of agricultural buildings, food and feed rooms.

Practically odourless solvents bring the active substances deep into the wood. The spectrum of action covers all stages of development of all animal pests living in wood and also sustainably prevents new infestations.

Arbezol Spezial is the safe-acting pest control agent and has no harmful side effects when used properly. Even polishes, glazes and metal fittings are not attacked. After drying, the treated wood can be glued, stained, painted, varnished or polished as desired.

Please follow the technical data sheet and safety data sheet under Documents.

Specifications

Category	Garden
Product group	Cleaning and maintenance (Garden)
Weight kg/piece	5.000
Content unit	5.0 l
Consumption	3-8 m2 with 1 l
Packaging	plastic canister
Items on stock	yes
Date of delivery	approx. 2 - 3 working days
Postal shipping	ja
